OIL PRORATION IS PRESENTED ANNUAL **ETEX CONVENTION**

MARLIN IS HOST FOR FIFTH ANNUAL SESSION REGION-AL CHAMBER

BY WILLIAM S. WHITE Associated Press Staff Writer. MARLIN, April 20.—(P)

-The issue of oil proration was put squarely up to the fifth annual convention of the East Texas Chamber of Commerce today by the retiring president, Guy A. Blount of Nacogdoches. Speaking from a supplement to his prepared address, Blount declared "We (East Texans) would be perpetrating a crime if we don't ratably handle this oil situation."

don't ratably handle this oil situation."
"I can't tell you how strongly I feel on the subject of conservation," he continued. "We are faced with the biggest thing we have ever faced."
"Millions and millions of dollars worth of oil." Blount went on, "and what are we going to do with At? Pour it out and give it away? And you hear people opposing proration! What are we going to do with it, throw it away?
We've got no right to throw it away. It is a God-given natural "esource."

Blount was cheered as he con-cluded his remarks on the subject.

HOUSE ADOPTS TAX ON CIGARETTES AT SESSION ON MONDAY

CORPORATION LOBBYISTS SCORED ALONG WITH SCHOOL TEACHERS

AUSTIN, April 20.—(A) -The house today adopted the free conference report to levy a tax of three cents per package on cigarettes. The vote to adopt the free conference report was 72 to 56 and came after al-

most two hours of debate in which the corporation lobby and the school teachers were severely criticized by opponents of the tax. The corporation lobby was charged by Representative Davis of Brownwood with having advocated the cigarette tax to lessen the pressure on the legislature to pass the intangible assets tax and other tax bills. GIANT WHALE TO BE EXHIBITED IN **CORSICANA SOON**

EDUCATIONAL EXHIBIT NOW TOURING COUNTRY TO BE HERE SEVERAL DAYS

The world's largest whale and its offspring, the former weighing 65 tons or 130,000 pounds and the letter three tons, or 6,000 pounds, will be brought to Corsicana, beginning Friday, April 24, for three days exhibition, according to H. E. LeBreque, advance representative for the Pacific Whaling Co., who are sponsoring the exhibit with the co-operation of the Sun.

the Catalina Islands, near California coast last August by a whaling party under the command of Captain David Barnett, noted whaler, who will be in Corsicana texplain the habits and temperament of sea monsters to those who visit the exhibit. The exhibit will be in a specially built car which will be parked near the Union depot, between Sixth and Seventh streets, where parking space for autos will be plentifut.

Sea Trophy Exhibit.

Captain Bernett also will display several sea trophies acquired by him during his years of adventure on the briny deep. The exhibit will be open during the day and at night for the convenience of those who are not able to see the monsters during the daylight hours. Appropriate lighting arrangements will be provided to that night observation will be equally as good as during the day.

The whale to be shown here Friday, Saturday and Sunday, April 24, 25, 26, battled his captors for 17 turbulent hours after being fatally hit with two large explosive harpoons fired from a high powered harpoon gine capable of hurling one of the death-dealing missiles with rope and steel cable attached, many hundred yards. On the rope and cable attached to the narpoons hurled into the whale to be seen here were 300 feet of the former and 1000 feet of the latter. The cable is usually released from its windlass after the shot has been fired as such a creature would wreck almost any reasonable sized boat unless ample yardage were released to aid the whalers in tiring out their prey to the point of submission. They are gradually hauled in to a safe distance from the ship and power pumps used to inflate them with air. The inflation serves as a buoyant aid in towing them to shore. On some occasions these whales have been known to break loose after being apparently subdued, threatening the lives of all those engaged in their capture.

Dimensions Given.

Some mental picture of the larger whale may be had from the dimensions of its mouth which is sufficiently large to accommodate six people at a single sitting. The throat of a whale, however is hardly large enough to swallow an ordinary sized grapefruit, it is said. This description either explodes the Biblical theory of Jonah escapades with a whale or eise the whale with which the ancient one came in contact must have been a came in contact must have been a different specie from that known to modern whaling.

The Sun will extend an invita-

tion to all school teachers and principals of the schools to attend the exhibit while in Corsicana, as their guests. This exhibit is endorsed by lead-

ing educational institutions, and is ing educational institutions, and is being sponsored by foremost news-papers in America, some of these endorsements follow: The Jackson, Miss., Daily News: "The whale attracted city-wide in-terest here and was the greatest educational exhibit ever shown in the state of Mississimi"

From the outset, the senate heard charges that the railroads were taking a hand in the proposed regulation of motor carriers. Senator Rawlings of Fort Worth charged that an amendment offered by Senator Woodul of Houston was an example of attempts by the railroads to regulate trucks.

In explanation of his amendment, Woodul said under the provisions of the Murphy bill class B owners were only required to file a certificate of convenience and necessity to become class A operators. He said his amendment sought to give class B operators the authorization to operate as they had previously done through until August 31, 1931. He stated operators would, under his amendment, be required to make application for a permit within 30 days after the Murphy bill went into effect.

The Steers bumped Shreveport for a double killing Sunday, 9 to 5 and 12 to 6. It made five straight for the Steers since their to 5 and 12 to 6. It made five straight for the Steers since their opening against the Sports. Hard hitting kept the Steers in front Sunday. In the first game, the Sports grabbed a 5 to 3 lead that was substantial until the sixth when timely hitting from the bats of Manager Morse, Eorrelli, Cotter, Bennett and some classy base running by Harrell gave the Steers enough runs in the sixth and eighth innings to continue their unbroken string of wins. In the nightcap, Red Roberts started for the Sports and was pounded hard, while Grady Adkins, Dallas hurler, was tight in the pinches.

Cats Hitting Hard

The Fort Worth Cats, who have clouted 61 hits in five ball games, ended their first game series gainst Wichita Falls Saturday with a 7 to 4 win, and four out of five games. Dick Whitworth started his first game this season for the Cats, and went the route. He stopped the Spudders with seven hits.

A veteran of many Texas league flag races, Tom Estell, saved the San Antonio Indians Sunday. Estell went to the relief of Ted Blankenship who got away to a miserable start of four passes in the first inning, and managed to hold Galveston while the Indians pounded out an 8 to 6 verdict. Galveston, however won the first game series, 3 and 2. Henry Thor

SHAPING THE EYEBROWS.

By all means learn how to shape your eyebrows at home. It is so very easy to do, if you once get the knack of it. You may have to have it done once or twice, just to see what a real professional can do in the way of improving the eyebrows. But after that, basely desert your specialist, having learned her secret.

learned her secret.

Some shops charge fifty cents to a dollar for evebrow shaping; most of them include a certain amount of it in a facial massage. But watch the girl who works over your eyebrows, thining and shaping them. Then buy a good pair of tweezers and after a week when the hair appear again, do it yourself.

when the hair appear again, do it yourself.

Let the brows be as thick as they normaly grow at the inside ends—that is, just above the nose. Though, if hairs grow here, so the eyebrows seem to join across the nose, pull these out. Thinning should be done from underneath, as far as posible, for the higher the arch, the more becoming the line, and the larger and brighter the eyes appear.

Thinning should be done toward the ends, that is, the outer ends, of the eyebrows, and hairs should be pulled above the normal line this time, rather than underneath, for the arch should slope downward at the ends. Just how high that torch should be above the eyes, and how thin it should be, and exactly what changes you make in the normal sloping line of the eyebrows, is a matter of your your good taste. This is where you will find it helpful to have someone else used to the method to do the job for you first. After that, so to speak, you retouch.

You can also pull out the thick hairs that have a bad habit of curling up and spoiling the eyebrows in the But never thin too much at one time; for a little thickness is needed to give strength and character to the brows.

New Orleans Cotton Steady.

NEW ORLEANS, April 20.—(AP)—
Cotton here today opened rather steady.
Liverpool was a shade lower than due at the start but soon improved. First trades here were one point down to one up. The market ralled right after the start in sympathy with the late improvement in the foreign market, rather flavorable textile reports, a better demand for spot cotton for export, and prospects of a cold wave in the western belt, with freezing in Texas, July traded up to 10.18 and October to 10.95, or soven points above the opening figures.

ket was steady and near the highs.

New York Cotton Higher.

NEW YORK, April 20.—(AP)—Cotton opened unchanged to 3 points higher today on further covering and some trade buying. Liverpool made rather a disappointing response to the local firmness of Saturday but the trade seemed to pay very little attention to the cables and he buying was considered a continuation of the demand which developed the market here late last week.

Offerings were light and readily absorbed with May selling up to 10.34 and October to 10.94 by the end of the first half hour or about 3 to 5 points net higher. Liverpool cables reported covering and continental buying in that market and said Manchester was getting a fair cloth business from South America. There may have been a little buying here on apprehensions that present favorabl weather in the South would be followed by cold rains.
